

Invitation to the Second IBUS course in Israel

IBUS – Update in Breast Imaging, Interventions & Management

A Practical Course with Hands-on Ultrasound Workshops

21 – 23 January, 2018

Hilton Tel Aviv, Israel

- The course “Update in Breast Imaging, Interventions & Management” brings together a faculty of international and local breast disease experts.
 - Presentations will highlight recent developments of clinical value, and define the current role of breast imaging modalities.
 - The practical workshops will focus on ultrasound scanning techniques, and image-guided interventional procedures.

Under the auspices of the:

- Israeli Senologic Society
 - Breast Surgery Group of the Israel Surgical Association
 - Israel Surgical Association
