

Roberta CHERSEVANI

Born in Trieste – in the North East of Italy, close to the Slovenian border. Graduates and specializes in Diagnostic Radiology in the University of Trieste.

Works up to March 2008 in a General Radiologic Dept. but is particularly dedicated – as far as research - to the diagnosis of breast diseases – dedicated mostly on the possibilities that breast ultrasound offers to diagnostic work-up.

She has done very intense hospital work, finding time for papers, chapters of books on breast diagnosis, and participation to meetings not only in Italy.

She has been in the faculty of the Scuola Italiana di Senologia, directed by Prof. U. Veronesi; of the International Breast Ultrasound School; of SIUMB (Italian Society of Ultrasound in Medicine and Surgery).

Has been in the board of EUSOBI – European Society of Breast Imaging, and of SIRM (Italian Society of Radiology).

Breast Subcommittee Member at the European Congress of Radiology from 2005.

Chairman of the Breast Subcommittee for ECR 2008.

President of the Medical Chamber of the town where she lives and works as a radiologist in a private practice: Gorizia.
